

### BASELINE FOR "THINK TWICE" CAMPAIGN

## IN SANTA ANA AND SAN SALVADOR (EL SALVADOR)<sup>1</sup>

IOM implements the Western Hemisphere Program funded by the United States Department of State Bureau of Population, Refugees and Migration, with the goal of strengthening government capacities to manage migration in a sustainable and humane manner.

Through this program, IOM promotes alternatives to irregular migration using the Communication for Development (C4D) methodology. This approach is being used as an innovative way of planning, implementing, and evaluating communication activities that intent to contribute to a positive behaviour change and the social development of communities.

The C4D "Think Twice" campaign is being implemented in El Salvador in the municipalities of San Salvador and Santa Ana. The goal is to strengthen capacities of young people to inform themselves in safe ways, and to prevent them from believing rumors or becoming victims of scams related to irregular migration. This baseline allows us to understand the current knowledge, attitudes, and practices regarding this topic and provides evidence that will inform the implementation of the campaign.
